

Collégiens Reading B

The troll runs away from the bridge because he is frightened of the lion. The troll is injured. He walks along the river and gets in a boat. He travels to the sea and then arrives at a small island. The magic fish follows the troll to the island. On the island there is a palm tree and a tall tower. The troll sees a princess who is very kind. She helps the troll and puts a bandage on his wound.

The troll says, "Thank you princess. How can I help you? "

The princess says, " The strong man won't let me leave the island ! He is cruel and I am a prisoner on the island. I have to stay in the tall tower. I can't see my family. Please help me troll. »

The fish knows what is happening because he is magic. He knows that the princess trusts the troll. The magic fish knows that the troll is dangerous.

The fish says, « Little bird please help the princess. Tell her that the troll is dangerous. Please tell the camel to help the princess escape from the troll and the strong man. She must not trust the troll! «

At night the strong man locks the princess in the tower. The fish magically opens the door to the tower and the princess escapes from the tower. She gets on the camel's back and they go to the troll's boat. The fish swims in front of the boat and the bird sits in the boat with the princess. The camel is too big. It cannot go in the boat.

In the morning the troll is angry because the boat has gone. The strong man is angry because the princess has disappeared. The fish, the little bird and the princess sail in the boat in the sea and then they travel up the river and arrive at the bridge. They arrive at the field where the donkeys and goats in the field of green grass.
